

Identity Theft

Identity Theft is one of the fastest growing <u>crimes</u> in the United States!

Skilled identity thieves use a variety of methods to steal your personal information:

- Rummaging through your trash (*dumpster diving*)
- <u>Stealing</u> credit and debit card numbers as they are processed by use of a special information storage device (*skimming*)
- <u>Stealing</u> wallets, purses, and mail
- <u>Posing</u> as a legitimate business person or government official

Prevention Tips

- Secure your mailbox or retrieve your mail quickly to limit the risk of stolen mail. All outgoing correspondence <u>dealing</u> with <u>finances</u> should be placed into a <u>secure</u> Post Office mail receptacle.
- If your mail has been tampered with or stolen, contact Postal authorities and consider yourself at risk.
- Only carry your Social Security card, Birth Certificate, or Passport when you need them.
- > Reduce the number of credit cards you carry to a **minimum**.
- Keep a list of your credit and bank accounts in a secure place. Copy the contents of your wallet and do the same.
- Never give personal information over the phone or the Internet <u>unless you</u> <u>are certain</u> of the caller's identity. Never comply with any request for information in connection with a transaction that you did not initiate.
- Immediately shred pre-approved credit offers that you don't use. To request these offers be stopped, call 1-888/567-8688.
- Never have your Social Security or Driver's License number printed on checks.
- > Consider listing <u>only</u> your name and number in the telephone book.

If Your Identity Has Been Stolen ...

... Take the following steps immediately. Follow up all calls in writing, reiterating your requests, and log all dates and time spent solving the problem.

1. Place a fraud alert on your credit reports and review them by <u>calling</u> the fraud units of the three credit reporting bureaus. Add a victim's statement to your report that requests they contact you to verify future credit applications.

- Close any accounts that have been tampered with or opened fraudulently. These accounts include those with banks, credit card companies and other lenders, phone companies, utilities, ISPs, and other service providers. <u>Be sure to use a new PIN number when opening new</u> <u>accounts</u> and ask your company's representative about fraud dispute forms.
- File a report with the local police in the community where the identity theft took place. Obtain a copy of the report. If you are unable to get a copy, at least be sure to have the report number.
- 4. **File a complaint with the Federal Trade Commission (FTC).** This will assist in tracking down identity <u>thieves</u> and stopping them.
