

Fraudulent Telemarketing

*Some people who call are **CRIMINALS!***

NEVER send money if they:

- Refuse to take "**NO**" for an answer
- Seem overly friendly for a stranger ... talk about personal matters ... and seem very concerned about your life and problems
- Congratulate you for being so lucky
- Ask for money for a prize that they insist you "won"
- Want to send a courier for your check
- Claim the company you "won" from is out of business, but they have your prize ... for a fee
- Tell you that they are Investigators, and – for a fee – will recover money you lost in a previous scam
- Urge you to act now because their offer won't wait,
- Claim there is no time to send anything in writing
- Guarantee that their proposed investment will work

NEVER buy over the phone from a stranger
NEVER buy on impulse ... ALL offers can wait

Stay Mentally Alert and Answer by saying:

"Take me off your Sucker List and put me on your Do Not Call List."

Then Hang Up ... and Immediately report the call to:

- Your Local Law Enforcement Agency
- Your State Attorney General's office

Don't be polite to a CRIMINAL!
